Dear Paul, 10/24/75

Home from hospital yesterday, loaded with clots, and I-Co congratulations and [illegible] over being flat on back with the most definite work of all being printed. It is this definite: There is some reasonable expectation it will address all the apparent terminal dependence.

As long as I'm on back I feel o.k.

The book is Post Mortem. If you know any who will want copies but not now be able to [illegible] I am mailing distributors. It is a very large book - 660 pp. We have ordered some special envelopes for it. It will be $10.75 by registered mail. Almost 200 pp. facsimiles including a fair selection of what the Commission never had. What I got from 3 lawsuits and as an alternative to filing others. It has come to the point where the Bureau & DOJ have told the federal courts that I know more about the subject than anyone in the FBI. Their "answer" to my charging & proving perjury. It is a hot book & with any luck & attention should create the case (not solve it). If you know any who will want both only my wife to do very many books will go out faster if the order is accompanied with a label. I can't [illegible] them while flat on the back!

If on the three assassination diaries you misunderstood what Schweiker said, not just press. He had four call from reading my books. I know of the LC action not as I recall Walter's story & various Lane-Garrison embellishments late 1967-early 1968. Dan Edwards is in bed with Lane so I'm staying out of that one. However, I believe Walter basically was truthful. I believe I know what it was all about,

And if a Christian is not connected with some kind of any interesting helpful church, Pentecostal, nothing against Episcopal. He has a chance to find it. But with those he has problems. It will take much time & consideration & prayer.

This letter must be sent quickly, today or tomorrow I wrote prior to the event to keep my complete thoughts involved. It would without me, especially in [illegible] of those by which I [illegible] 1968.

Thanks for Reading

Hope your life gets along well

Best wishes

Richard
